To Recap, Take a Look at the Snapshot of This Past Year and the Time Ahead:

We are Merit Shop. We are IEC! Our commitment to IEC. We could not do this without you and we do all of this because of you.

As you can see, IEC has been steadfast in our commitment to serve you, our merit shop contractor members. The future is indeed bright. Thank you for all your support and growth in Nevada, Louisiana, and Michigan as key areas ripe for IEC. And we made history together as we swear in our first female President of the association, Candy Branham.

In 2019, IEC National worked with local contractors in South Carolina and Middle Tennessee (Nashville area) to launch two new chapter locations. Our national network is now 51 chapters strong!

We updated our cornerstone 4-year apprenticeship to ensure our apprentices growing talent within IEC contractor member companies. For the first time in history, we have an IEC contractor leading the charge of NFPA’s Correlating Committee. And representatives of IEC in all code making panels of the NEC process, as Larry Ayer of Greater Cincy has taken the pole position as Chair of the NEC making certain that our merit shop voices and interests are heard.

We hit a record number of attendees at the National Convention in 2019, as the IEC network is now 51 chapters strong! This is a 77% growth in the past 5-years. We hit a 62-year historical record of 13,000 apprentices in IEC training schools across the country. This is a 77% growth in the past 5-years.

Our Safety Committee will be launching a dedicated Safety Conference in 2020. We launched 4 new educational programs to keep our members competitive and up to speed with titles in NEC, Leadership, New Worker orientation, and Fire Alarm.

We have fully replenished our financial reserves and are in a solid fiscal health. We’ve had a terrific year of service to advancing our agenda and will continue to fight for our merit shop businesses each and every day. We’re have just come off of a tremendous election year. IEC is working hard to continue our strong as we head into this presidential election year. The economy continues to be bullish and for our association and industry.

As we look toward 2020, it is clear that we can and will accomplish much more together.

And it doesn’t stop here, in 2020 we’ll continue to raise the bar. We’ll continue to update our 4-year curriculum in the year ahead. We are setting up the pins to bring our members to the EATON Experience Center in Pittsburgh, in collaboration with ATP. 2020 will also bring about our National Instructor Conference in the summer at the EATON Experience Center in Pittsburgh.
